

Enterprise Design Scenarios

Simple Maps and Map Elements in the Enterprise Design Modelling Language (EDML)

Stack aspects	Typical Maps	Entities (Nouns)	Activities (Verbs)	Qualities (Adjectives)
Big Picture	Narratives to inform strategic decisions			
	Identity	Brand, Identity	Behaviour, Service	Value, Image, Culture
	Architecture	Resource	Process, Value Stream	Performance, Value, Capability
	Experience	Artefact, Product, Context	Activity, Task, Job	Motivation, Value, Feeling
Anatomy	Mappings to understand what's going on			
	Actor	Actor, Stakeholder, Segment	Activity, Task, Job	Concern, Interest, Motivation
	Touchpoints	Channel, Device, Context	Step, Task, Activity	Touchpoint, Moment
	Services	Resource, Asset	Service, Process	Quality, Performance
	Content	Item, Node, Piece, Element	Lifecycle, Production	Meaning, Value, Quality, Purpose
Frames	Models to make sense and synthesize			
	Business	Product, Resource, Market	Activity, Process, Service	Goal, Value
	People	Persona, Profile	Behaviour, Task, Activity	Trait, Value
	Function	Asset, Resource	Function, Behaviour	Goal, Purpose, Requirement
	Structure	Concept, Object, Entity	Action, Use	Attribute, Characeristic, Property
Design Space	Maps to inform the design approach			
	Communication	Medium, Channel, Support	Message, Communication	Reach, Impact, Meaning
	Information	Information, Node, Item	Decision, Use	Interpretation, Value
	Interaction	Device, Interface, App	Interaction, Task	Goal, Motivation, State
	Operation	Resource, Asset, Item	Process, Service, Task	Condition, Performance, Rule
	Organization	Team, Unit	Job, Task, Activity, Responsibility	Purpose, Function, Objective
	Technology	Component, System, Node	Behaviour, Feature, Use, Function	Purpose, Requirement
Rendering	Prototypes / design fiction to make it happen			
	Signs	Medium, Sign	Perception, Understanding	Meaning, Interpretation
	Things	Thing, Artifact	Usage, Task, Feature	Purpose, Function, Use
	Places	Place	Journey, Path	Purpose, Function, Use, Visit

Enterprise Design Scenarios

Maps typically produced along the Enterprise Design Approach phases
