Framing the system

EMERGING NICHE INITIATIVES
e.g. pilot programs, social innovation cases, new technology, start-ups applications

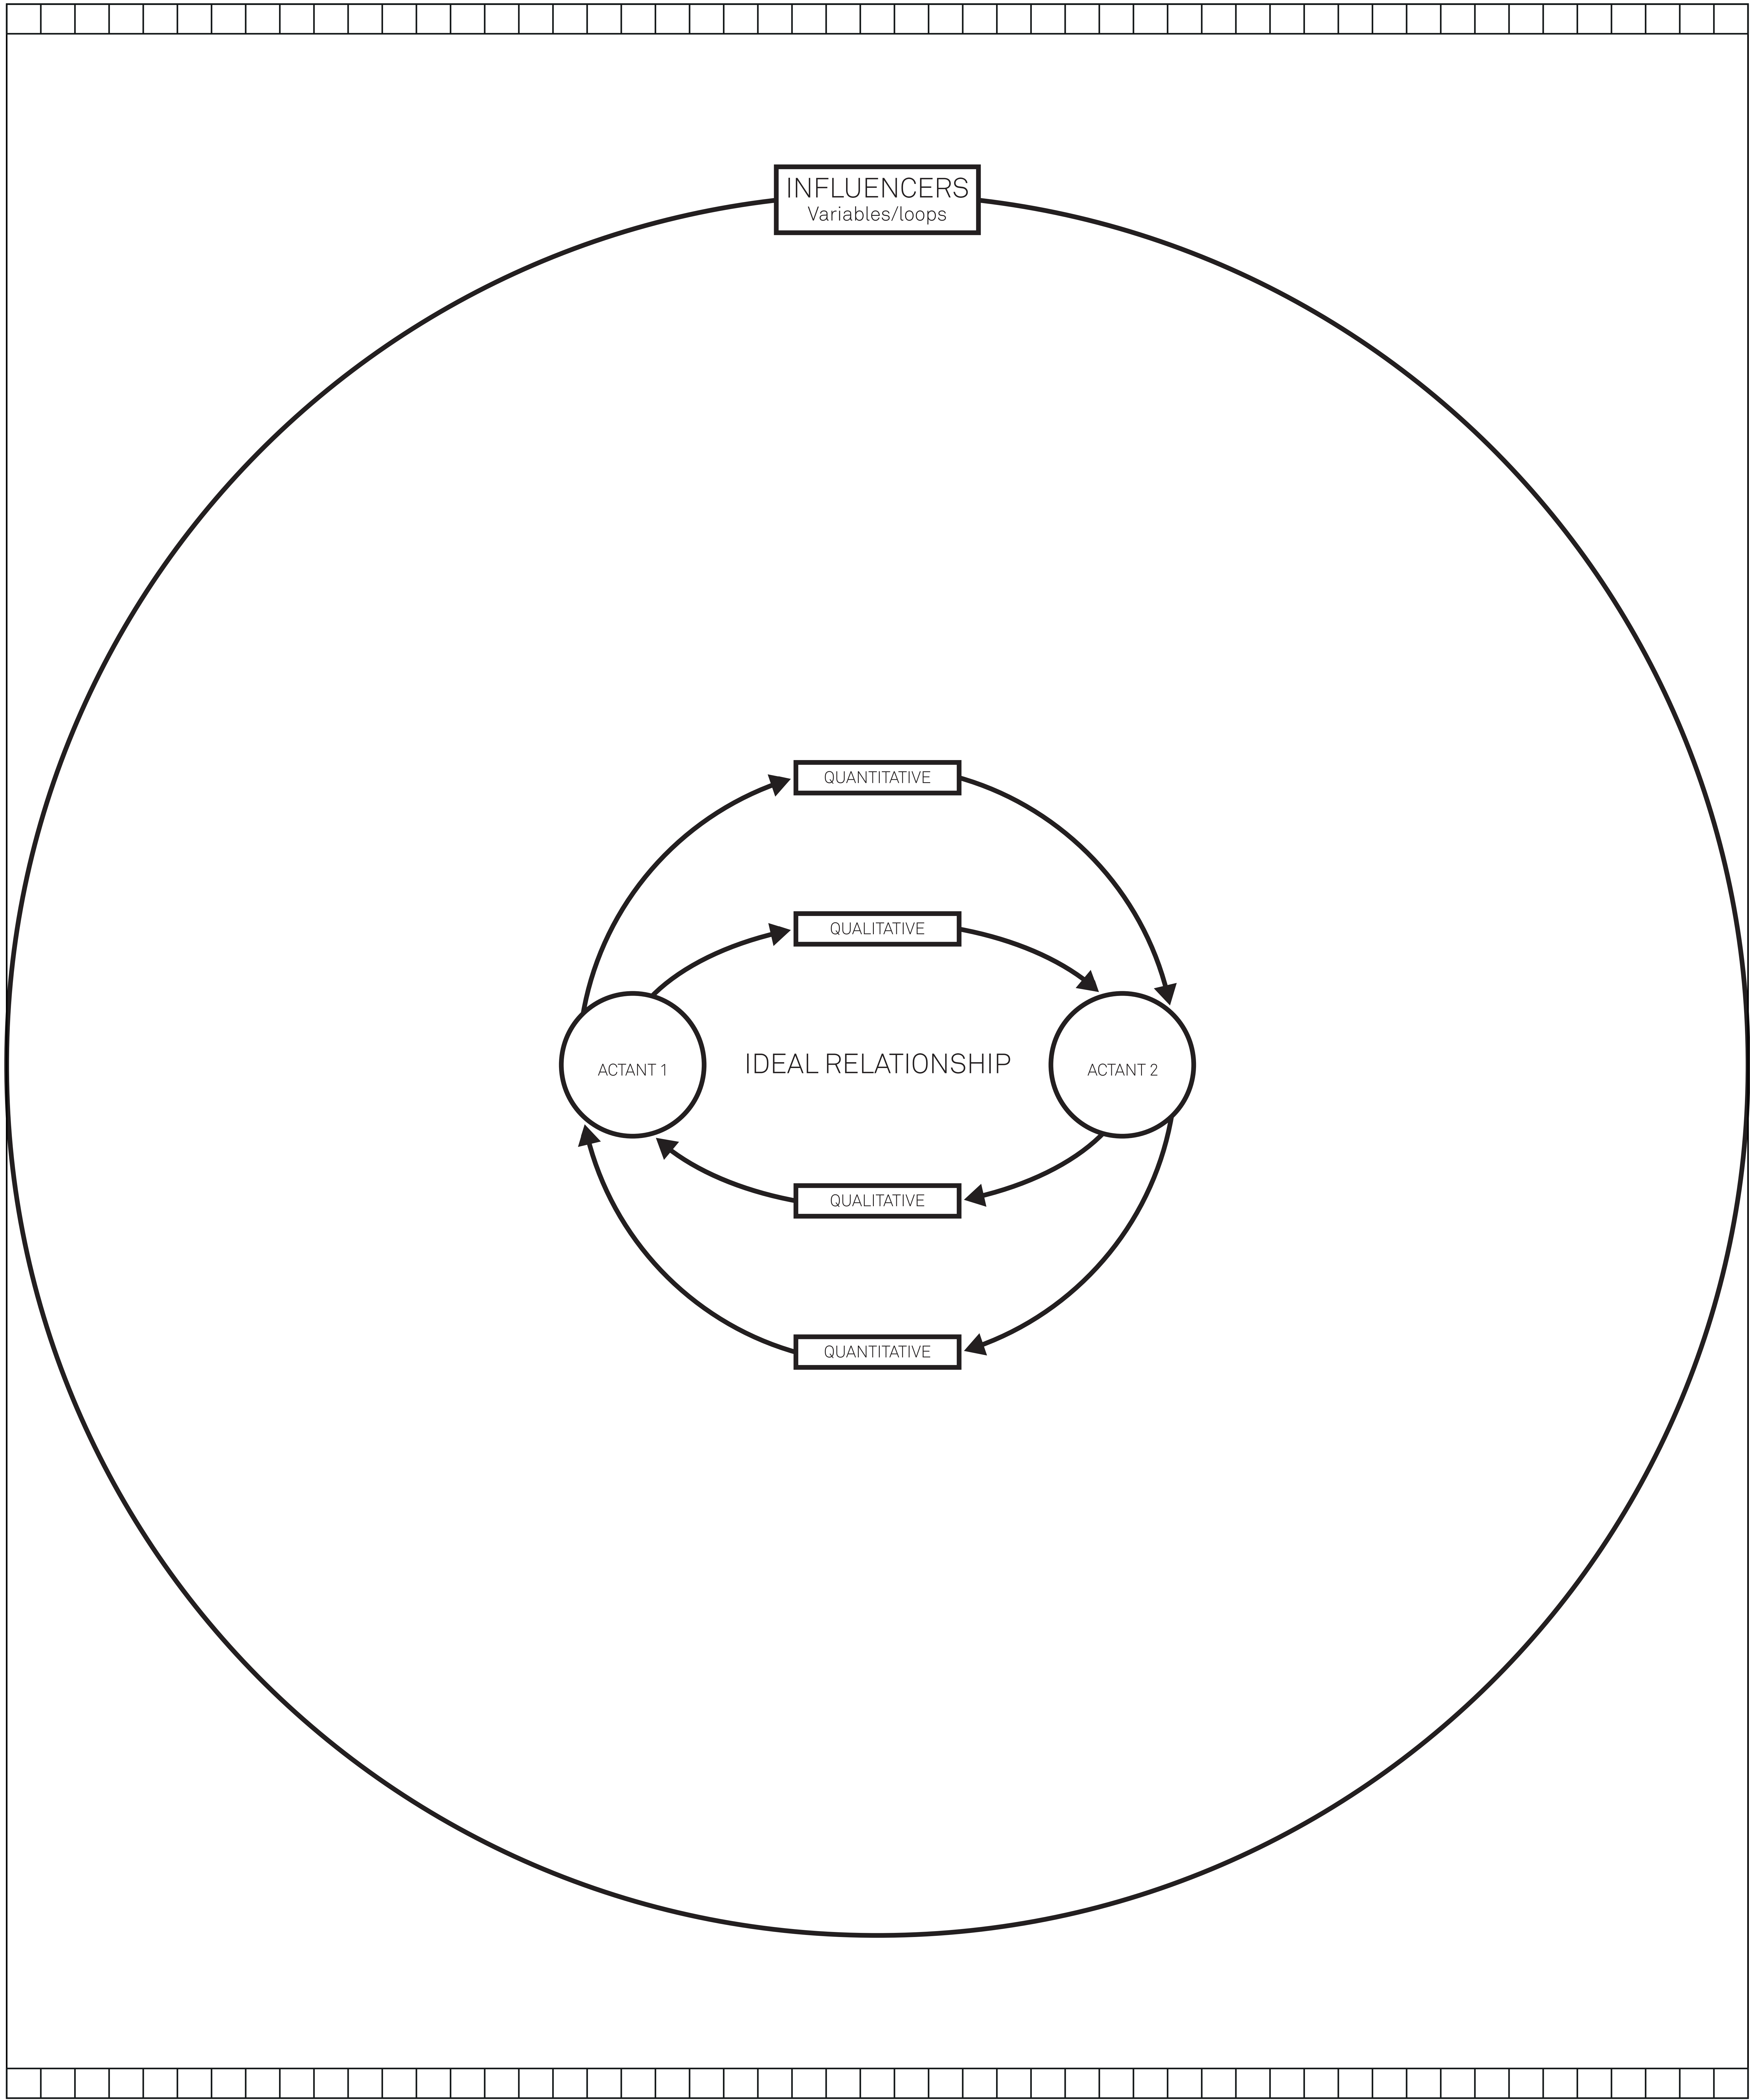

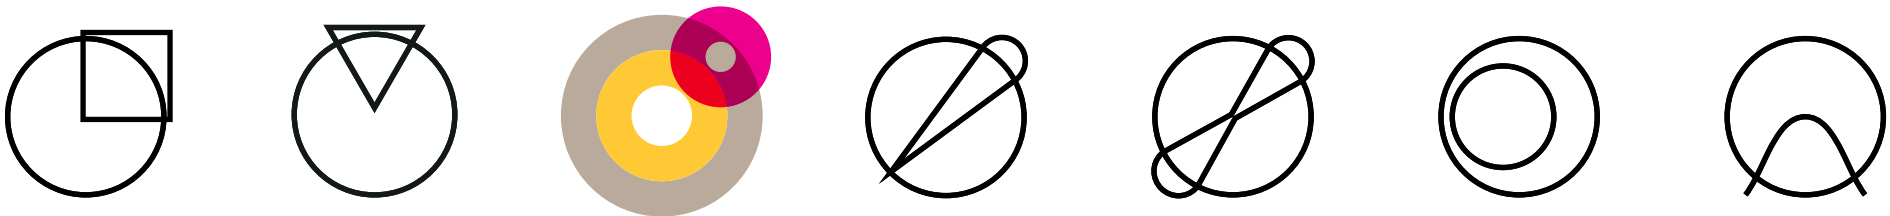

SYSTEM MAP

Understanding the system

ECONOMICAL

What would you like to see achieved
(tangible and intangible) ?

ECOLOGICAL

What change in mindset is needed?
What worldview do we need to modify

What are the decisions about limits
(subsidies, number of people/artists/ events...)
that should be reviewed/changed?

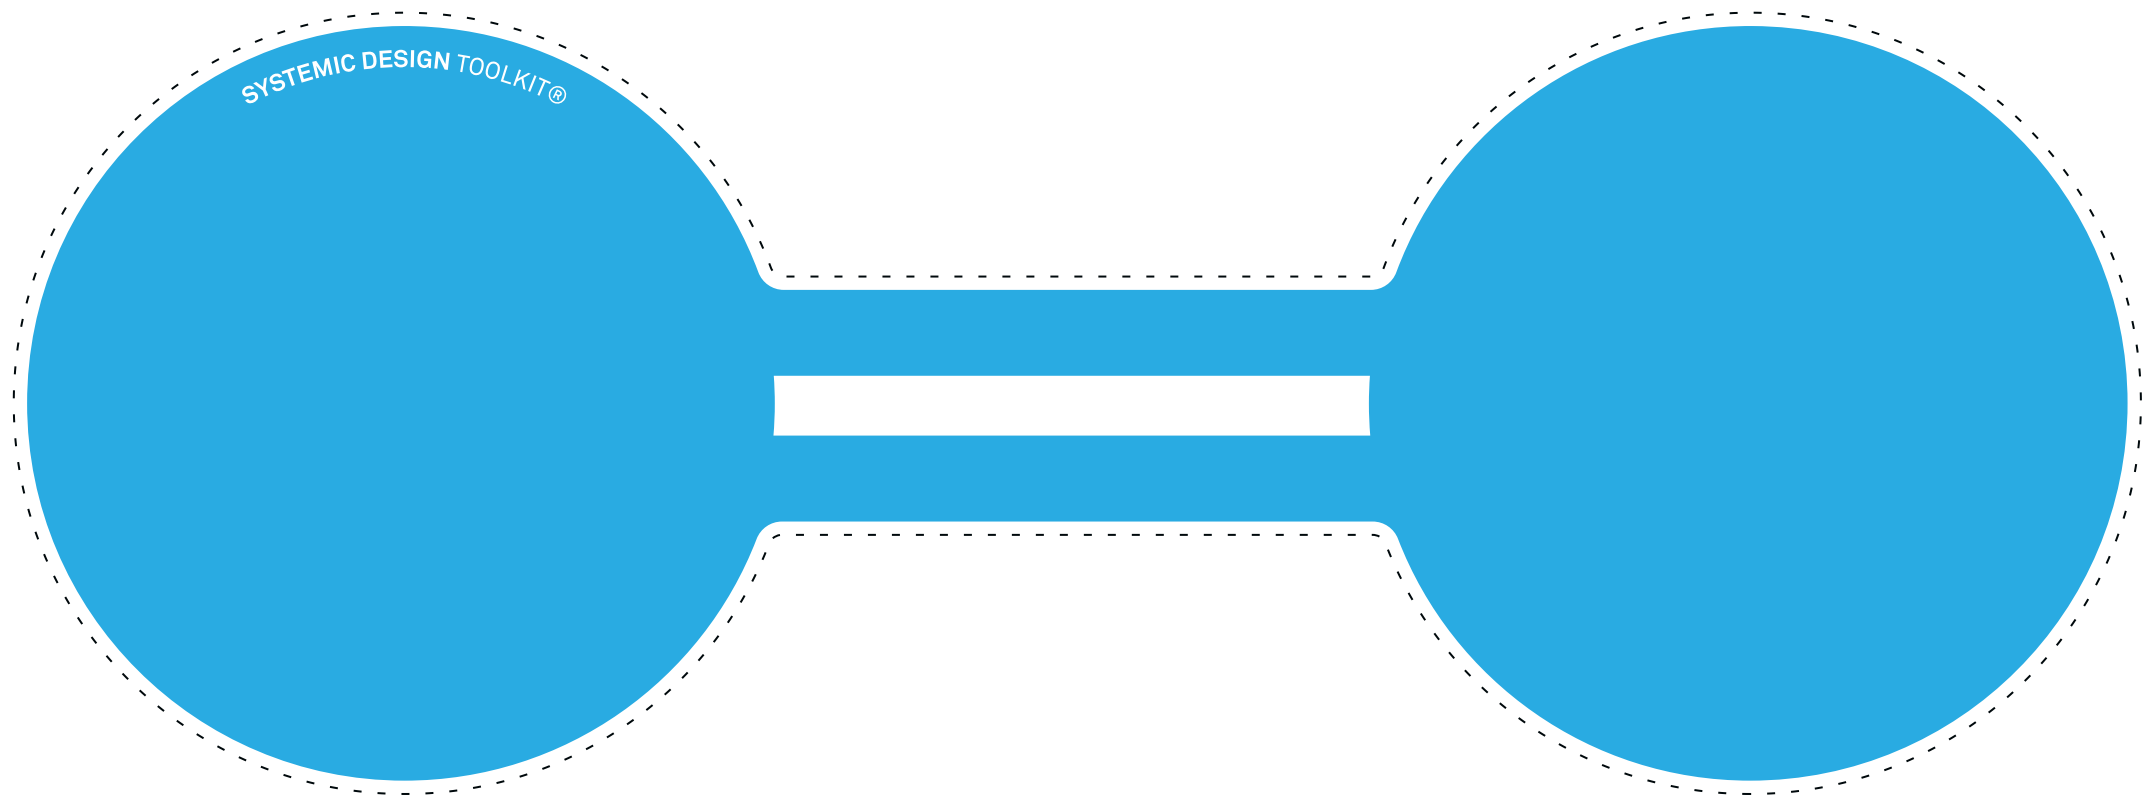

How can we introduce positive escalations
or limit negative ones?
