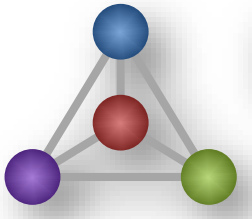
The Pragmatic Enterprise Architecture Framework

v3.3a – October 2016



Pragmatic
ENTERPRISE ARCHITECTURE

Connecting the DOTS

PF²

Part of the Pragmatic Family of Frameworks

Context

© Pragmatic EA Ltd (2008-2017)

How an Enterprise **effects Transformation** has become

a **Strategic Strength**

where massive business opportunities can be gained,

or a **Strategic Weakness**

where massive business problems will result.

CHALLENGE:

Describe the purpose of EA in one 160 character SMS message (including spaces, punctuation and carriage returns)?

Rationale: Pragmatically, if you can't describe the purpose of EA in one short sentence, you will not get the ear of the people required to utilise it.

No rambling, ivory tower, interlectual monologues here. Just post your 160 characters.

The purpose of Enterprise Architecture is to…

enable an enterprise to realise its Vision through the execution of its Mission, whilst enabling it to respond to change and increasing its effectiveness, profitability, customer satisfaction, competitive edge, growth, stability, value, durability, efficiency and quality while reducing costs and risks

by

Strategic Planning, Architecting and Governance supported by a Decision Support framework aligning all parts of the enterprise

using

Models, Guidance, Processes and Tools.

© Pragmatic EA Ltd (2008-2017)

The purpose of Enterprise Architecture is to…

allow an enterprise to thrive

by

Strategic Planning, Architecture and Governance

using

a Framework.

PEAF allows Executive Management to take a coherent and holistic view of **Strategising and Roadmapping (EA)**, allowing them to pragmatically increase their maturity, and thereby increasing their Effectiveness and Efficiency,

by providing a coherent and holistic framework (**Methods**, **Artefacts**, **Culture** and **Environment**) to enable informed decision making about what to change and how.

A Logical Model for Enterprise Architecture.
Think Strategically.
Act Tactically.

Strategising

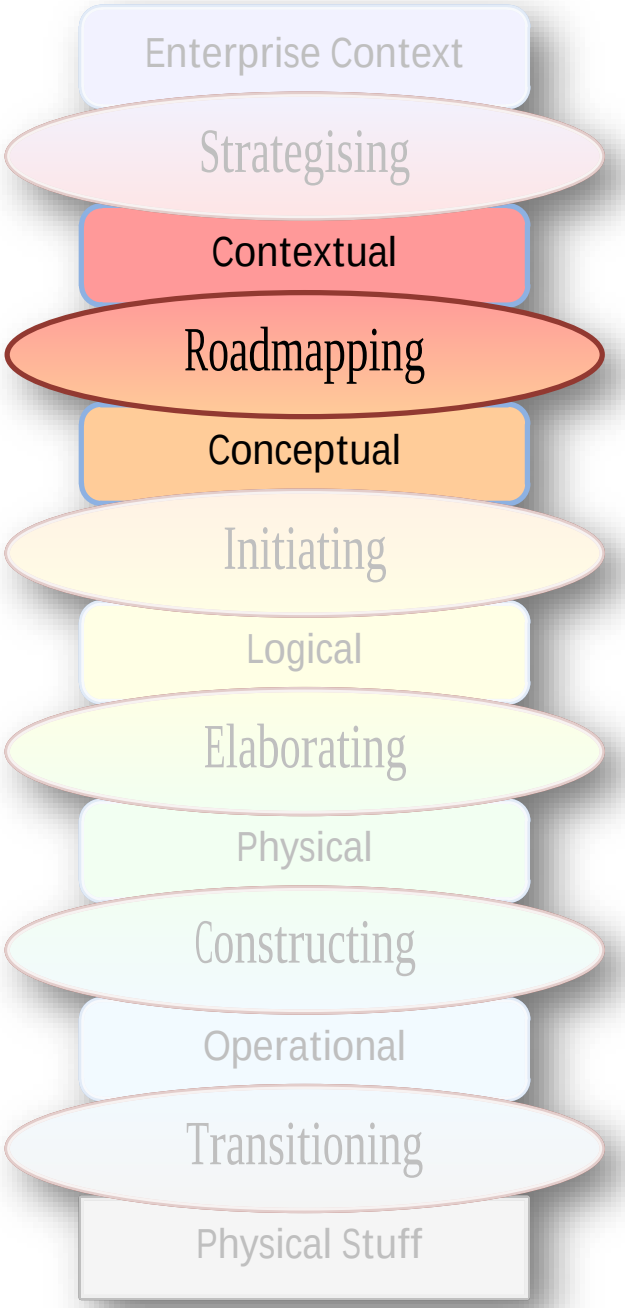
Sometimes called Business Strategy or Enterprise Strategy

e.g. Mission, Vision, Strategies, Tactics, Goals and Objectives

© Pragmatic EA Ltd (2008-2017)

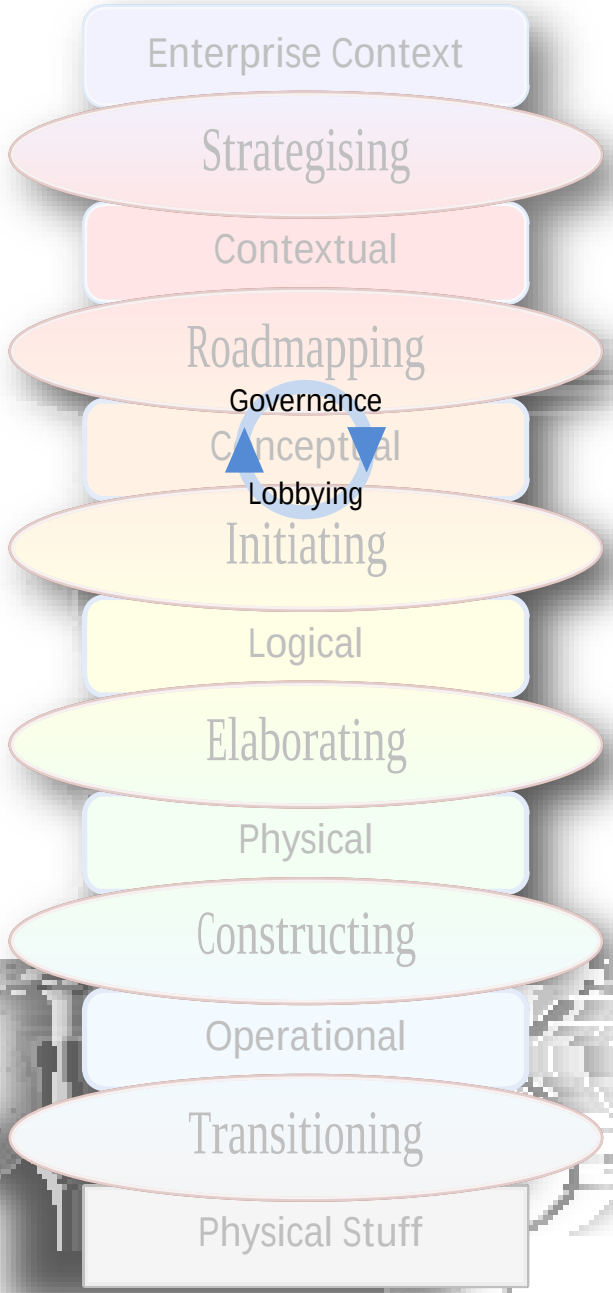


Roadmapping

Sometimes called Annual Business Planning or Transition Planning

Creates a portfolio of projects and roadmaps to be initiated over the coming year(s)

© Pragmatic EA Ltd (2008-2017)



Project Governance & Lobbying

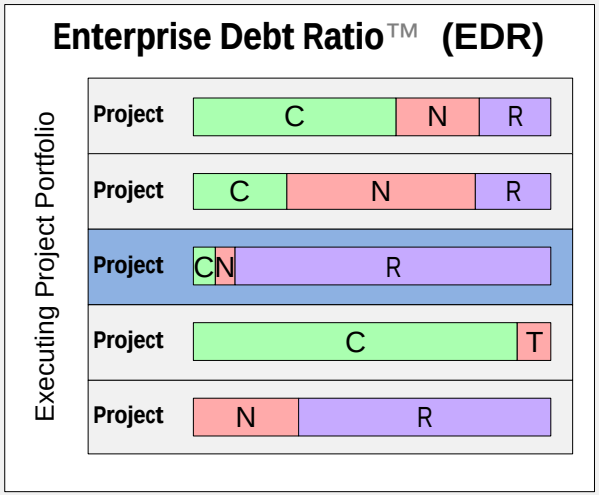
The work that happens to guide project execution ensuring compliance looking down (Governance) and raising issues and problems looking up (Lobbying)

© Pragmatic EA Ltd (2008-2017)

Enterprise Debt™ > Ratio > Compliant : Non-Compliant : Remedial

Executing Project Portfolio

Enterprise Debt Ratio™ (EDR)

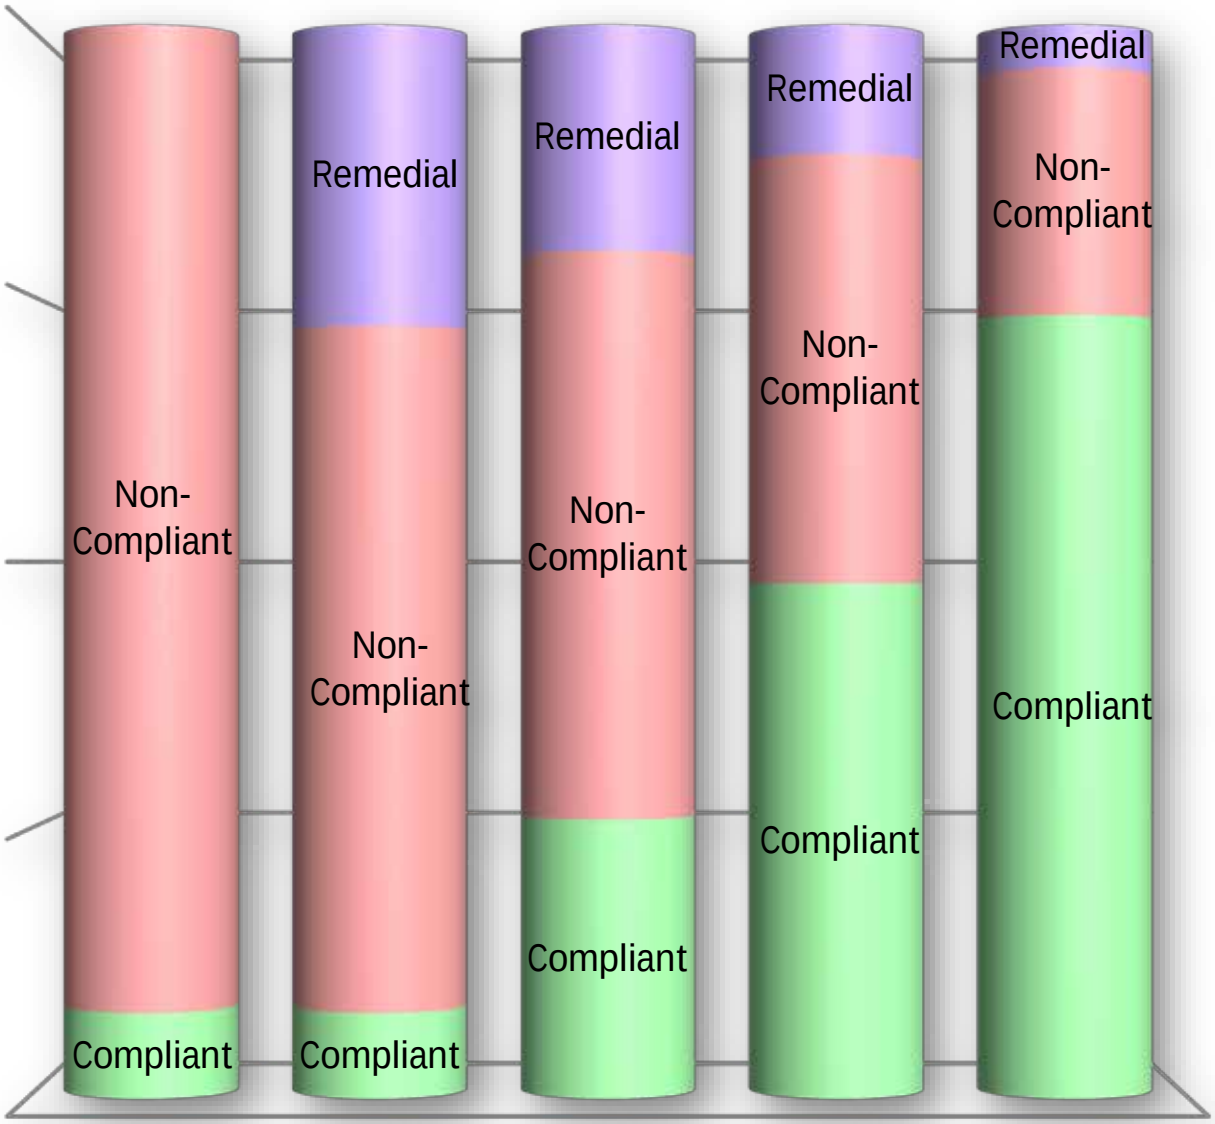


Enterprise Debt™

Key

Compliant	Non-Compliant	Remedial
Complies with Guidance	Contravenes Guidance	Fixes Previous Contraventions
C	N	R

Enterprise Debt Ratio™ (EDR)



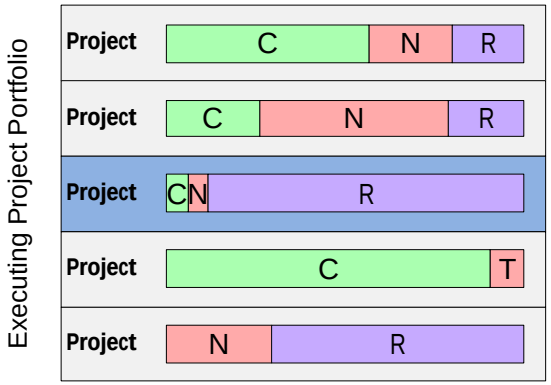
If you never **PLAN** to do Transformation in a way that complies with guidance,

you will never **DO** Transformation in a way that complies with guidance.

Enterprise Debt™ > Waivers

Executing Project Portfolio

Enterprise Debt Ratio™ (EDR)



Waiver

Cost of Compliance

What resources (time, money, people, scope change, etc) are required to be able to comply with the guidance?

Cost of Non-Compliance

What Issues and Risks (with associated costs) will result while we continue to be Non-Compliant?

Cost of Remediation

What Resources will be required to become compliant in the future?

Provide the resources required **NOW**.

Governance

Lobbying

Accept the **RECURRING** Cost of Non-Compliance and the **FUTURE** cost of remediation.

Business Decision

Enterprise Debt™

Key

Compliant
Complies with Guidance
C

Non-Compliant
Contravenes Guidance
N

Remedial
